

Sewing a green heart

You will need:

- A heart shaped template – below
- Green material
- Thread
- A needle
- Pins
- Something you can stuff it with: toy stuffing

Instructions

1. Print out the template below and cut it out
2. Pin your template to the fabric and cut around it twice
3. Add a word or message on the front with a simple climate change message e.g. 'one world', 'save our planet' or something more specific to your ask
4. Put your two hearts together with the side you want on the outside on the inside and then sew around it, leaving a small gap for reversing and stuffing
5. Using the gap turn it the right way out
6. Stuff with some stuffing and sew up the gap
