Dear Cllr.....,

Thank you for all you do working for our local area. I really appreciate what a positive voice you are for .....(insert place name) and all the work you do for the local community.

I am writing to you from the Leeds Craftivists. Each month we meet as a group to discuss a topic and do something creative in response. Our most recent theme was biodiversity, we discussed how we can encourage greater biodiversity in our gardens and local areas.

You will see enclosed is a 'no mow' banner. I hope you like it and find it encouraging.

I wanted to ask you to consider if there might be spaces in our local area that could be left for wild flower meadow? Verges on the sides of roads, an area in local parks or areas of grass like.....(if you have an area in mind put that here). I would love to work with you on this, please do get back in touch to discuss what could work.

Best wishes,

.....

Leeds Craftivist
